PROFESSIONAL SUMMARY

As a junior web developer, I am enthusiastic about utilizing my technical skills and passion for creating dynamic, user-friendly web applications. I have a strong foundation in ReactJS, JavaScript, and Tailwind CSS. I am eager to continuously learn and adapt to the latest web development frameworks and technologies.

TECHNICAL SKILLS

Front-End : ReactJS, Redux, JavaScript

HTML, CSS, Tailwind CSS

Problem Solving, DSA

Database : MongoDB, SQL Server

VCS : Git, Github

WORK EXPERIENCE

Training - MERN Stack

Improving my Technical skills at JSpider institute.

PROJECTS

Swiggy Clone

Technologies Used: ReactJS, Tailwind CSS, Swiggy API

- I developed a food ordering web application similar to Swiggy, using ReactJS for the frontend and Tailwind CSS for responsive design. The app integrates Swiggy's live API to fetch real-time data such as restaurant names, menus, images, and prices, providing a seamless user experience similar to the original platform.

Youtube Clone

Technologies Used: ReactJS, Tailwind CSS, YouTube API

- I built a video streaming platform modeled after YouTube. The app uses the YouTube API to dynamically fetch live video data, including video titles, views, likes, comments, channel names, and subscriber counts. The project showcases my ability to work with RESTful APIs and manage complex data in a structured, user-friendly interface.

Netflix Clone

Technologies Used: ReactJS, Tailwind CSS, TMDB API, Firebase Authentication

- I created a movie streaming platform similar to Netflix. The application leverages the TMDB API to pull live movie data such as titles, posters, and videos. Additionally, I implemented Firebase Authentication for user registration and login, providing secure access to personalized features.

EDUCATION

Bachelor of Science in Information Technology (BSc IT) | CGPA : 8.5

2021 - 2024 | Geetanjali College, Saurashtra University - Rajkot

Higher Secondary Certificate (HSC) – Science Stream | Percentage : 65%

2021 | Shree Swaminarayan Gurukul - Rajkot
